

High-EfficiencyTwo-Stage Variable-Speed Gas FurnaceDownflow/HorizontalUp to 96% AFUEACVC96

Premium Amana<sup>®</sup> Brand Quality Stainless-Steel, Tubular Primary Heat Exchanger ComfortNet<sup>™</sup> Communicating Systems Compatible

### HIGH-EFFICIENCY TWO-STAGE VARIABLE-SPEED GAS FURNACE

Downflow/Horizontal | Up to 96% AFUE | ACVC96

### Features to be proud of:

#### ComfortNet<sup>™</sup> Communicating System Compatible

Thermostats have evolved beyond just indoor temperature adjustments, and a ComfortNet communicating control offers an abundance of easy-to-use, comfort-enhancing capabilities on its stylish touch-screen LCD display. From programmable, scheduled temperature settings and optional remote system control to continuous performance monitoring and automated maintenance alerts, a ComfortNet control offers an advantage in home comfort and control compared to non-programmable thermostats.

#### Quiet Comfort

Many homeowners may think the best gas furnaces are not seen or heard. That's why an Amana brand AMVC96 Variable-Speed Furnace is insulated for noise reduction. However, the real secret to its unobtrusiveness is that it strives to operate on low capacity as often and as long as possible providing quiet and highly-efficient performance compared to units containing a single speed motor.

#### Energy Efficiency

Energy efficiency equates to cost savings. A gas furnace's efficiency rating can primarily be determined by two factors: its AFUE rating (Annual Fuel Utilization Efficiency), which indicates what

percentage of each dollar of natural gas purchased is actually used to heat your home; and the type of blower used in the furnace.

This Amana brand Two-Stage, Variable-Speed Furnace offers 96% AFUE, as opposed to lower ratings of less efficient gas furnaces. Its variable-speed blower can improve its efficiency rating and enable the furnace to maintain consistent warmth in low-heat capacity mode without inefficient high-heat surges associated with singlespeed gas furnaces.

# Choose an Amana<sup>®</sup> brand gas furnace and you won't get cold feet

When the time comes to replace your old, worn-out furnace; you should choose to go with a name you know, like the Amana brand, one of America's most trusted and enduring consumer brands. Yet, peace of mind isn't all that you'll enjoy with an Amana brand ACVC96 Two-Stage, Variable-Speed Furnace.

### *Component upgrade offers better performance in exchange*

The new stainless-steel, tubular primary heat exchanger now featured in Amana brand gas furnaces is a worthy replacement for our esteemed Million-Air® heat exchanger. Perhaps the most essential component in a gas furnace's performance, this re-engineered heat exchanger employs wrinkle-bend technology to deliver extraordinary durability and long-term reliability.

## Get straight A's in cost effectiveness

When you receive an AFUE rating of 90% or more, your gas furnace is performing at the top of its class. Simply put, the Amana brand ACVC96's 96% AFUE rating means 96¢ of every dollar you spend on energy is actually used to heat your home. That's very little wasted energy when compared with lowerrated or older, increasingly inefficient heating systems.

# The security of the Amana brand's amazing warranties

To truly seal the deal, Amana brand gas furnaces are backed by industryleading limited warranties\*. The majority of our gas furnaces are backed by a Lifetime Unit Replacement Limited Warranty\*, while all Amana brand products feature a 10-Year Parts Limited Warranty\*. Together these warranties combine to offer you a level of purchase protection that's the stuff of legend.

#### LIMITED WARRANTY<sup>\*</sup> PROTECTION

Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Unit Replacement Limited Warranty and the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

### EXTENDED SERVICE PLANS AVAILABLE

For even greater peace of mind, ask your dealer or visit our website at www.amana-hac.com for more details about Asure<sup>®</sup>, an affordable Parts and/or Labor Extended Service Plan for your entire Amana brand HVAC system.<sup>†</sup>

### The Amana<sup>®</sup> brand ACVC96 High-Efficiency Gas Furnace advantages:

- ComfortNet<sup>®</sup> Compatible Continuously monitors system performance and allows remote control of system as an option.
- Stainless-Steel Tubular Primary Heat Exchanger Unique tubular stainless-steel construction formed using wrinklebend technology results in an extremely durable heat exchanger. Paired with a stainless-steel secondary heat exchanger, this combination provides reliability, durability and efficiency.
- Efficient and Quiet Variable-Speed Circulator Motor – Provides quiet system startup and shutdown with highly efficient performance.
- Durable Silicon Nitride Igniter Eliminates the need for an energy-wasting pilot light.
- Two-Stage Gas Valve Reduces energy needed during moderate demand to deliver outstanding comfort and efficiency as compared to single-stage gas valves.
- Quiet, Two-Stage, Induced-Draft Blower Provides precise control and enhanced energy-efficient performance as compared to a natural draft furnace.
- Continuous Air Circulation Provides added filtration and keeps air moving throughout your home to help maintain comfort.
- Self-Diagnostic Control Board Continuously monitors the system for consistent, reliable operation, stores last diagnostic codes in memory and indicates condition through a dual 7-segment display for quick troubleshooting.
- Heavy-Gauge Steel Cabinet with Durable Finish Resists corrosion and protects essential components.
- Thermally Insulated Cabinet The fully-insulated cabinet means air leakage of less than 2% to maximize heat transfer efficiency and lower blower noise.

Extended Service Plans not available in all states. Ask your dealer for full details.

### A legacy of comfort The impeccable reputation of an American original
